A Word from the President – Eric, VE3EI

President’s message March 2016

As I sit here in the dark, on March 4, due to a power outage in NOTL, it reminds me that as hams, we need to have emergency backup. Well I do, for my internet! I have a solar panel charging a storage battery feeding an inverter which powers all my modems and switches. When I designed the system I expected to get 24 hours of operation on a charged battery! I only got 20 minutes!!! It seems that the battery has to be exercised otherwise it does not keep its full capacity!!!! Oh well, back to the drawing board. I either have to buy an extra battery or figure out a way to exercise the battery.

One of the things I have to do as president is to figure out what interests Amateur Radio Operators in a general sense as well as some particular requirements and to make the meetings interesting and enjoyable for all. I am having this discussion with other club’s executives and what I have found: THERE IS NO EASY ANSWER. So I am going to start inquiring of the members and some of the rest of the Amateur Radio Community for some solutions.

Now that the Big Event is over and the results are in I am happy to report that we dodged the bullet this year. With a late start and no one in charge, the fact that it got done was amazing. I would like to thank all the volunteers and those that gave up hints about what to do!! Without you guys, and girls, we could not have done it. One of David’s missions was to create a How To manual for future generations. Unfortunately we could not get enough feedback from everyone about what went right and what went wrong. So this year, Peter VA3WET has volunteered to help write the manual! And what better way to do it but for him to adopt the role of Big Event Coordinator! **Congratulations Peter. Did you get the license plate number of truck that ran you over?** Peter, David, myself and Rachel are the committee organizing the book. Peter has my authority to draft (or have volunteer) the department heads required. A flyer for the event has been cast, the RAC webpage of coming events has been updated, and things are on their way. We will be looking for NPARC Big Event Ambassadors to help spread the word at all the Flea Markets coming up. Starting at [HAM-EX™](#) in Brampton on March 19th. If you want to volunteer for this position you might want to consider it. There are some benefits!

I did a quick search on the number of Amateur Radio Licenses assigned in Niagara Region. I did not realize it covers Grimsby, West Lincoln, Lincoln, Wainfleet, Pelham/Welland, Port Colborne, Fort Eire Niagara Falls, Niagara on the Lake and St Catharines. By my estimate there are approximately 876 Hams in the area, discounting club call and repeater calls. We have 61 club members. That amounts to slightly less than 7% of all hams in Niagara. I would like to get to 15% of the hams in Niagara which amounts to 130. We have to come up with a means of enticing them to attend the meetings and join NPARC. Let’s see what we can do as a club to put the fun back into Ham Radio Social Life!

20160211 General Meeting
Royal Canadian Legion, Branch 613, Fonthill, ON

19:06 Meeting was called to order by President Eric VE3EI

Roll Call

26 Members & 3 Guest signed in.
Apologies David VE3RNF
Members were encouraged to identify their prime reason for being a Radio Amateur

Treasurers Report Peter VA3WET provided report. The clubs financial position at 31Jan2016 was read out. 48 Members with 10 being Life members and 34 being RAC members.

(No motion to approve the report was put forth at this time during the meeting.)

Correspondence

Reported by Peter VA3WET that he retrieved the bank statement from Meridian from the PO Box

Minutes

Garth did not receive January Feedline.
Correction. Call sign recorded in minutes as VE3ICS. Should be VE3ISC.
*Motion by Kevin VE3KGS to approve the Minutes of January 2016 General Meeting as published in Feedline, Seconded. Motion was adopted.

Committee Reports

Big Event 2016 John VA3BOZ & Kevin VA3KGS. Happy on how event went. No incidents. New flyer needed. Kevin: 8 Tables removed. Durham did not attend due to miss-communication with NPARC. Eric reported ICOM colleagues impressed with event. Book to be created to help others run future HamFests. Garth VA3HO, suggested to make kitchen opening time clearer. 55 Tables and 356 admissions.

Repeaters Eric VE3EI stated VE3WCD has problem with P.A.

GWEN Peter VA3WET – Nothing to report

ARES Henry VA3OV Monthly meeting next Weds @ Regional HQ. No activities planned soon. Two SETs in recently.

SATERN No report

MESH Kevin VA3KGS, Brad VE3XNC & Eric VE3EI Mesh up and running. Hamilton on board now. Need more nodes in St. Catharines. Presentation later in year.

Field Day Peter VA3WET is coordinator this year. Joe VE3BW, made presentation about using Fort Erie lighthouse. More than half present interested. Peter to cancel Balls Falls this year. All future plans and setup to be for having Field Day at Lighthouse.

New Business

Big Event Coordinator needed for next year now. No one volunteered.

Membership list. Eric VE3EI asked Peter VA3WET for list before March meeting. Needed for

Presidents Message cont..... – Eric VE3EI

Finally, I would like to remind all the club members that I had hoped to start a flea market session at every club meeting. Check your basements. If there is something there that you have not used for three years or more, consider bringing it to the club meeting. It may find a new and loving home!

This month’s guest speakers are our own Lloyd Kubis, VE3ERQ, and Kevin, VA3KGS who are going to bring us up to date on the progress of SDR (Software Defined Radio). Next month we will feature Alex Schartz, VE7DXW, who is going to show us how to add SDR capabilities to existing HF Radios. This is cutting edge folks, and I am looking forward to it! C U at the MEETING!

Words from the Co-Editor – Kaitlynn

Well here we are again,

Feedline time as we start to enter the month of March.

To me one of the best times of the year. Lots of great contests are just around the corner. State QSO parties and of course, this month on the 26th, is the [CQ WPX SSB contest](#). Guess what's happening here at my QTH that weekend? Yep... "CQ Contest, CQ Contest..." Unless you want to help operate or log, it could possibly be dangerous to anyone who tries to interrupt me. LOL. Seriously though, if you have never participated in a contest and want to get your feet wet, or want to help out that day, get in touch with me. We could run multi-operator. So far I have two 1st place finishes in that contest and I'm gunning for more. Good luck to all that join me that weekend in the contest.

Hey there's that logo again!

Yes, [Field Day 2016](#) is just breaking out of the gates and Peter, VA3WET has stepped up once again to organize this great club event for 2016.

There is so much to get organized for that weekend. I'm sure Peter would be welcome to any help offered to assist in whatever way you can. Please take the time to read Peter's great [article](#) written on his plans for this years event.

Till the next issue!!

Big Event #39 Info – Peter, VA3WET

2017 Big Event '39' is in the Works and Needs Your Help

At the last executive meeting Eric, our President, mentioned to me that I have taken every NPARC position except the Presidency. He said this after I announced I will be stepping down as the Treasurer after my term. I had to correct him. I have never been the Big Event Coordinator. Well, the rest is history. I have volunteered to take a kick at the can to be your Big Event '39' coordinator. During the planning I will log my activities so future organizers will have a template to follow.

Work Done So Far

The RAC website has been updated. The event will be Saturday February 4th, 2017. The venue has been confirmed and will be at the Merritton Community Centre. The same location as this past event. The prices will be the same. General admission is still \$7.00 and if you want a table, the cost will be \$13.00. Tables DO NOT include admission.

Kevin, Va3kgs has agreed to be the Table Coordinator only if he has a helper to train. The Table Coordinator needs someone to regularly check the mail box for cheques. After information is recorded and tables are plotted, the cheques are handed to the Treasurer.

The last item to report is the Flea Market Flyer. Kaitlynn is almost finished with the design and it could be ready at the March meeting for the membership to check out and hand out.

Volunteers Needed

I am counting on Dennis, Va3dtp to flog door prize tickets again. Garth, Ve3ho ran the door like a pro and I hope he accepts the position this time around. Brian, Ve3bmx is a natural at security and I hope he takes security coordinator again if he is not working. We need someone to take money at the vendors table, issue wrist bands and co-ordinate tables on game day. David, Ve3bbn did this for many years and I hope he does it again and maybe show a newbie how it is done. We have an idea or two to streamline the operation. There is no arm twisting to get Kaitlynn in the kitchen again. Her bookkeeping in the kitchen made my job very easy. The last position needed is for someone to look after the NPARC junk table. Dennis Ve3xc did a fine job and I hope he joins the group.

Please put your hands up at the next meeting to volunteer. If I have missed anything, please let me know.

Some ideas

This year as Event Coordinator I would like to have a pre-event meeting. The meeting will give us a breather to work out any last minute issues. Maybe have some milk and cookies during the meet.

This year I would like to know who is going to area Hamfests. While there, I would like members to make a list of vendors, retrieve business cards, record contact information and hand out NPARC Big Event '39' Flyers. NPARC will reimburse your admission for the first two members who contact me before the event. Once we see the spoils of your trip, you will be reimbursed. This information will be used to flog table sales for our Big Event.

This year if we can arrange a free table at these events, I would like to see members take an NPARC Banner, NPARC Brochures and NPARC Big Event Flyers for display and distribution.

Field Day 2016 Info – Peter, VA3WET

ARRL Field Day 2016 Set for Balls Falls Conservation Area

Now that the BIG Event is behind us, we can use the funds raised for a fun Field Day weekend in June to play radio in the great outdoors.

Field Day is an outdoor twenty-four hour amateur radio event which simulates an emergency. It is for new and semi-new amateurs or hams to gain experience, test their skills and have fun contesting with friends. Club members and guests will assemble stations, erect antennas and safely operate gasoline generators. Niagara Peninsula Amateur Radio Club or NPARC members will gather on Saturday, June 25th and Sunday June 26th, 2016 at the Ball's Falls Conservation Area in Jordan on the Niagara Escarpment to operate several stations off the grid with emergency power. Field Day is sponsored by the American Radio Relay League or ARRL.

No amateur radio experience is necessary. Half the fun is learning. If you would like to be a part of Field Day contact Peter at va3wet@gmail.com. To make the event run smoothly, we need Band Captains. Band Captains are in charge of their station. They organize personnel, equipment, set-up and operation of their radio station. We need people to help erect antennas on Saturday. We need people to operate radios and log contacts. We will show you how. We need people to tear down antennas on Sunday and help clean up. We need a cook to cook a feast to keep our energy up. We need to contact agencies, politicians and media to spread the word about Field Day 2016. We will need helpers at the grill, at the GOTA station and at the NPARC public display. We need to get a few more digital and CW stations.

Remember no experience is necessary. Come on out, set up a tent and help us with operating, logging, set-up and/or tear down.

Sincerely,

Peter, VA3WET,
Field Day 2016 Coordinator.

Ontario distracted driving legislation and Amateur Radio

Calling All Ontario-based Amateur Radio Clubs and ARES Groups

As you may well know, Amateur Radio operators in Ontario are enjoying a time-limited exemption under the Highway Traffic Act's distracted driving regulations, allowing us the use of mobile 2-way communications apparatus until January 1, 2018.

However, that day is approaching faster than we think. Amateur Radio operators have been utilizing mobile communications equipment safely and responsibly since before cellular telephony was popular and affordable. In addition, the equipment that can be found in the vehicles of thousands of hams across Canada translates to an instantly available means of communications in time of disaster - a network of no cost to the served agencies who may depend on it.

Every other Province and Territory in Canada has recognized the value of this fact, amongst others, and have granted us permanent exemptions in their laws respectively. Now it's time to ensure that Ontario does the same.

I am spear-heading the effort to lobby the MTO to make the exemption under the Highway Traffic Act (HTA) Regulation 366/09 permanent to all certified Amateur Radio operators, but I need help. I am looking to compile the following documentation from as many individual sources as possible:

Priority 1 - Letters from Served Agencies - Government: I would like every club and ARES/Emcomm group in Ontario that has a good relationship with the agencies they provide auxiliary communications to (i.e.: municipalities, emergency services), to get signed letters from people within those agencies (i.e.: elected municipal representatives, members of emergency services, CEMC/PEMC) outlining the vital importance of Amateur Radio in their emergency communications strategy/strategies.

Priority 2 - Letters from Served Agencies - NGOs: Similarly to the above, I would like letters from Non-Governmental Organizations (i.e.: relief agencies, hospitals) outlining the services that Amateur Radio operators and organizations provide to them, and their importance to their operations in time of need.

Priority 3 - Letters from NFPs: In addition, I would like letters from Not-For-Profit groups that your club or organization provide communications to on a volunteer basis, emergency-related or not (i.e.: parades, runs/walks, special events) detailing what you provide for them and their importance.

The letters I'm requesting do not have to reference the HTA or distracted driving - I simply want to put as many letters in front of the MTO as possible outlining our importance to the municipalities, NGOs and NFPs we serve. I believe it will be this documentation, above all else, that will help secure our permanent exemption and put this matter to rest once and for all. I would like to have all of this documentation in hand by no later than March 31, 2016 so that I can assess what we have and plan our next moves.

If you should have any questions, comments or concerns, I would love to hear from you, and am reachable by any of the means listed below.

Study Guides

[Radio Amateurs of Canada](#) offers the following study guides to help you learn the things you'll need to pass your exam and have fun with amateur radio:

Morse Code may be learned in a class or by self-study using a number of methods. A popular way is to download a software program that teaches the Morse Code and provides drills at progressively higher speeds until the student is ready for the examination.

It should be noted that, while Morse Code is almost extinct in the commercial radio services, it still has wide usage in amateur radio. As proficiency speeds beyond the five words per minute is desirable, it is important to learn and practice the Morse Code so as not to inhibit your own future speed development. Accepted practice is to use what is known as the Farnsworth Method whereby character speed is faster than the word speed, allowing longer timing spaces for comprehension.

One of the most popular Morse Code learning and practice programs is called [Morse Academy](#).

Though you won't be able to fully apply the information until you start operating your station, you will find the information in the following desk reference book of considerable value:

[RAC Operating Manual](#)

Like the [RAC](#) study guides, the following books reflect the latest changes in the [Canadian amateur radio regulations](#). You may purchase [RAC](#) publications at major amateur radio retailers or on-line below.

2m Net Controller Information—Peter VA3WET

Niagara Peninsula Amateur Radio Club 2 meter Net Procedure

Good evening this is (callsign) _____, (Name) _____ welcome to the Niagara Peninsula Amateur Radio Club Monday Evening 2 Metre Net.

I am your net control station for this evening and we will use the club callsign, (VE3VM) Victor Echo Three Victor Mike .

The purpose of this net is to promote club interest and amateur radio.

This is an informal unstructured net, where we have no agenda other than to have fun and enjoy each others company although net controllers are encouraged to suggest a weekly topic of discussion.

This net is open to all amateur radio operators whether they are members of the Niagara Peninsula Amateur Radio Club or just HAMS who want to stop by and join in the fun.

The net meets each Monday Night at 7 PM local on the VE3NRS 147.240 repeater located in St. Catharines, Ontario.

At this time I will take check-ins from mobile and portable stations and stations with short time.

Please wait for the previous station to be recognized before checking in.

I will now take checkins from anyone, anywhere.

Next week your Net Control station will be (Call) _____, (Name) _____.

We have had (no.) _____ check-ins tonight.

I would like to thank the Niagara Peninsula Amateur Radio Club for the use of the repeater.

Thank-you repeater technicians for maintaining the club repeaters (names).

This is closing the Niagara Peninsula Amateur Radio Club net at

local time and returning the repeater to normal use.

73 and Good night.
